SOUTH AUSTRALIAN COMMERCIAL WRASSE DAILY CATCH LOG SHEET

INSTRUCTIONS FOR USE

Under the current fisheries legislation, all licence holders with access to Wrasse species (Family Labridae (other than Western Blue Groper) must fill in details of their daily fishing operations during a calendar month on a Wrasse Daily Catch log sheet. This log sheet must be lodged to SARDI Aquatic Sciences, PO Box 120 Henley Beach SA 5024 and marked Attention: Dr Michael Steer, no later than the 15th day of the following month. These returns have been designed to assist researchers in assessing the Wrasse population for management purposes. The information on individuals is treated as confidential. If no fishing was undertaken, you are not required to submit a Wrasse log sheet.

EXPLANATORY NOTES

Name of licence holder, licence number, main place of landing, log sheet number, month, year, total month sold and fish dealer/processor sold to must be completed on every return. Each return must be signed by the licence holder. Please note you must start from 01 or continue from previous log sheet you have returned.

Comments: Record any other comments relating to your fishing activities if necessary

Fish Dealer/Processor Sold to: Record the name of the fish dealer or processor your landed catch was sold to.

Day of month: Record each days fishing activity for taking individual Wrasse species.

Species of Wrasse: Record the name of each Wrasse species caught.

Est. KG: Record the estimate weight of the individual Wrasse specie caught and circle the condition for each species landed, Whole (W), Headed and Gutted (H) or Gutted (G)

Length/Size: Record the total length in mm of each individual Wrasse caught. If a large quantity of Wrasse are caught, please record the first 30 Wrasse species.

Depth (m): Record the approximate depth, in metres, the fishing gear was set.

Habitat: Record the habitat code of the bottom where your gear was set (please refer to logbook page 3 for a full list of habitat codes).

Main Area (Code): Record the main area code where fishing took place for that day (please refer to logbook pages 5 – 6 for the South Australian Marine Fishing Areas).

Market: Record if the Wrasse was alive or dead when caught.

Numbers of Fish Released: Record the species and numbers of undersized, damaged or unmarketable species released to the water.
