NOTICE TO MISCELLANEOUS (GIANT CRAB) FISHERY LICENCE HOLDERS AND ROCK LOBSTER FISHERY LICENCE HOLDERS WITH GIANT CRAB QUOTA: DETERMINATION OF THE GIANT CRAB QUOTA UNIT VALUE FOR THE 2019/20 FISHING SEASON

Dear licence holder,

I write to advise that as delegate of the Minister for Primary Industries and Regional Development under the Fisheries Management (Rock Lobster Fisheries) Regulations 2017, and the Fisheries Management (Miscellaneous Fisheries) Regulations 2015, I have determined the giant crab quota unit values for the 2019/20 quota period in the Northern and Southern Zones as follows:

<table>
<thead>
<tr>
<th>Zone</th>
<th>Quota unit value</th>
<th>Total Allowable Commercial Catch</th>
</tr>
</thead>
<tbody>
<tr>
<td>Northern Zone</td>
<td>13.4 kg/unit</td>
<td>13.4 tonnes</td>
</tr>
<tr>
<td>Southern Zone</td>
<td>8.7 kg/unit</td>
<td>8.7 tonnes</td>
</tr>
</tbody>
</table>

Determination of the giant crab quota unit values has been made considering:

- The objectives of the Fisheries Management Act 2007
- The revised harvest strategy adopted in July 2018 included in the Management Policy for Commercial Fishing of Giant Crab in South Australia.
- Updated advice from SARDI Aquatic Sciences on the performance of the fishery included in an Advice Note dated 16 August 2019. A copy of the advice note is attached for information.

This determination of the giant crab unit value in 2019/20 maintains the value of a giant crab unit and the Total Allowable Commercial Catch in each zone at the same level as determined in 2018/19. Please note you are not required to return your licence. The entitlements and registration extract of your licence has been updated and is enclosed.

If you have any enquiries in relation to the Giant Crab Fishery please contact Annabel Jones, Program Leader, Commercial Fisheries, on (08) 8429 0165.

Yours sincerely,

Sean Sloan
EXECUTIVE DIRECTOR
FISHERIES AND AQUACULTURE
Delegate of the Minister for Primary Industries and Regional Development
