

# Guide for exporting tomatoes, capsicums and chillies from South Australia

Government of South Australia  
Department of Primary Industries and Regions

State/Territory	ToBRFV Restrictions	Fruit fly Restrictions
 WA	 Plant Health Certificate	 Treatment required
 QLD	 Plant Health Certificate	 No treatment required
 VIC	 No restrictions*	 No treatment required
 TAS	 No restrictions (for unlinked properties)	 Treatment required
 NT	 No restrictions*	 No treatment required (excl. Ti Tree region)
 ACT	 No restrictions*	 No treatment required
 NSW	 No restrictions (for unlinked properties)	 No treatment required

Each state and territory have their own specific requirements for importing tomatoes, capsicums and chillies. These requirements can change at any time. We strongly encourage you to check with the relevant biosecurity Agency prior to exporting any produce.

\*Restrictions apply to Infected Properties
