

Biosecurity in South Australia

Know the restrictions when entering SA, the Riverland or Kangaroo Island.

Quarantine stations in SA

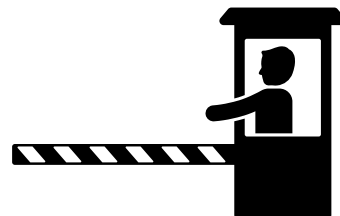

📍 Ceduna - Eyre Highway

📍 Oodla Wirra - Barrier Highway

📍 Pinnaroo - Mallee Highway

📍 Yamba - Sturt Highway

Random roadblocks also operate in SA

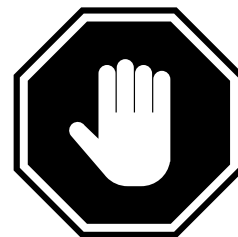

Quarantine stations and bin locations can be found on Google Maps and at pir.sa.gov.au/sa-quarantine

Restricted items

Below are some items which may be restricted when entering SA, the Riverland or Kangaroo Island. Before you travel, check pir.sa.gov.au/sa-quarantine for the full list and current status.

- Fruit (fresh)
- Honey and bee products
- Vegetables:
 - > Cucumber
 - > Capsicum, chilli, eggplant, tomato
 - > Peas, beans
 - > Potatoes
 - > Pumpkin, squash, zucchini
 - > Spinach, silverbeet
- Plant material:
 - > Bulbs, corms (dormant)
 - > Cut flowers
 - > Grapevines, cuttings, budwood
 - > Plants (fruit, veg or house/indoor), nursery stock, seedlings, cuttings, potted herbs (inc. from supermarkets)
 - > Soil and dirt
 - > Wood (firewood, chips, dried, bark-free)

If you're entering SA from WA, these additional items may be restricted:

asparagus, broccoli, cabbage, cauliflower, celery, chives, garlic, herbs (fresh, cut), kale, lettuce, leeks, onions.

Fruit fly restrictions

For the latest information on fruit fly outbreaks in SA, and moving fruit and vegetables at risk of fruit fly around the state, visit fruitfly.sa.gov.au

Travelling interstate from SA

Each state and territory has its own biosecurity regulations. Check the relevant government website before you travel and remember to follow SA's entry requirements when you return home.
