KEEP OUT OF REACH OF CHILDREN  
READ SAFETY DIRECTIONS BEFORE OPENING OR USING

# **STRYCHNINE**

## **FOR USE ON WILD DOG TRAPS**

ACTIVE CONSTITUENT: STRYCHNINE ALKALOID (99.9%)

**NOT TO BE USED TO MANUFACTURE BAIT**

### **RESPONSIBILITIES**

Under the Regulations of the *Animal Welfare Act 1985*, strychnine must be applied to the jaws of leg-hold traps to deliver a rapid death to trapped wild dogs. Landholders must hold a current 'Licence to Possess Section 22 Poisons - Strychnine' issued by the SA Dept of Health under the *Controlled Substances Act 1984* and *Controlled Substances (Poisons) Regulations 1996*.

### **APPLYING TO TRAPS**

Tightly wind a strip of hessian or similar material (25 x 5 mm) around the free jaw. Apply 2 level measures of strychnine using the spoon supplied (equivalent to ¼ teaspoon or 0.5 grams) into the last wrap or two of the hessian. Secure with tie-wire, cable-tie or similar.

### **SAFETY DIRECTIONS**

Very dangerous. Poisonous if swallowed. Harmful if absorbed by skin contact. When handling strychnine wear protective clothing, PVC gloves, safety glasses and dust mask. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. Store in a locked facility at all times, except when required for use. The product is only to be kept or stored in its original sealable labelled container as supplied by the manufacturer.

### **FIRST AID**

For advice, contact a Poisons Information Centre on 131 126 or a doctor at once. Urgent hospital treatment is likely to be needed. If swallowed, give activated charcoal if instructed. If swallowed, do NOT induce vomiting. If swallowed or inhaled, remove from contaminated area. Apply artificial respiration if not breathing. Do not give direct mouth-to-mouth resuscitation. To protect rescuer, use air-viva or one-way mask. Resuscitate in a well-ventilated area.

### **IMPORTANT: READ 'INSTRUCTIONS FOR USE' BEFORE USING**

Net Contents: 25 grams
