IMPORTANT INFORMATION

1. Individual passenger catch limits are the number of fish permitted per person, per day.
2. On multi-day charters, the catch limit for Commonwealth-managed species is restricted to one individual passenger limit or one boat limit, regardless of the number of days fished.
3. It is an offence to cut up, fillet or otherwise mutilate fish in a boat (except for scaling and gutting) unless the fish are to be eaten on board. This applies to all species subject to minimum legal lengths.
4. All undersize fish must be carefully returned to the water immediately.
5. Charter boat operators and recreational fishers are not permitted to sell their catch.
6. Once you have caught your individual catch limit you are not permitted to catch any more of that species during that 24 hour period (applies from midnight to midnight).
7. A number of closures are in place in South Australia at certain times of years or in certain areas to protect key species. Charter operators and passengers must comply with closure rules at all times.
8. Some species are totally protected in South Australian waters and penalties may apply to anyone who takes or causes them harm. Protected species include; all marine mammals (including whales, seals, sea lions and dolphins); leafy sea dragon; Western Blue Groper in Gulf waters, Investigator Strait and Backstairs Passage; White Shark and all Southern Rock Lobster, Blue Swimmer Crab, Sand Crab and Giant Crab with eggs attached.
9. Charter boat operators are not permitted to undertake personal fishing while conducting a chartered fishing trip.

Penalties may apply for non-compliance with these regulations.

NOTE: These limits specifically apply to recreational fishers participating in charter fishing activities.
