

Our renewable energy future

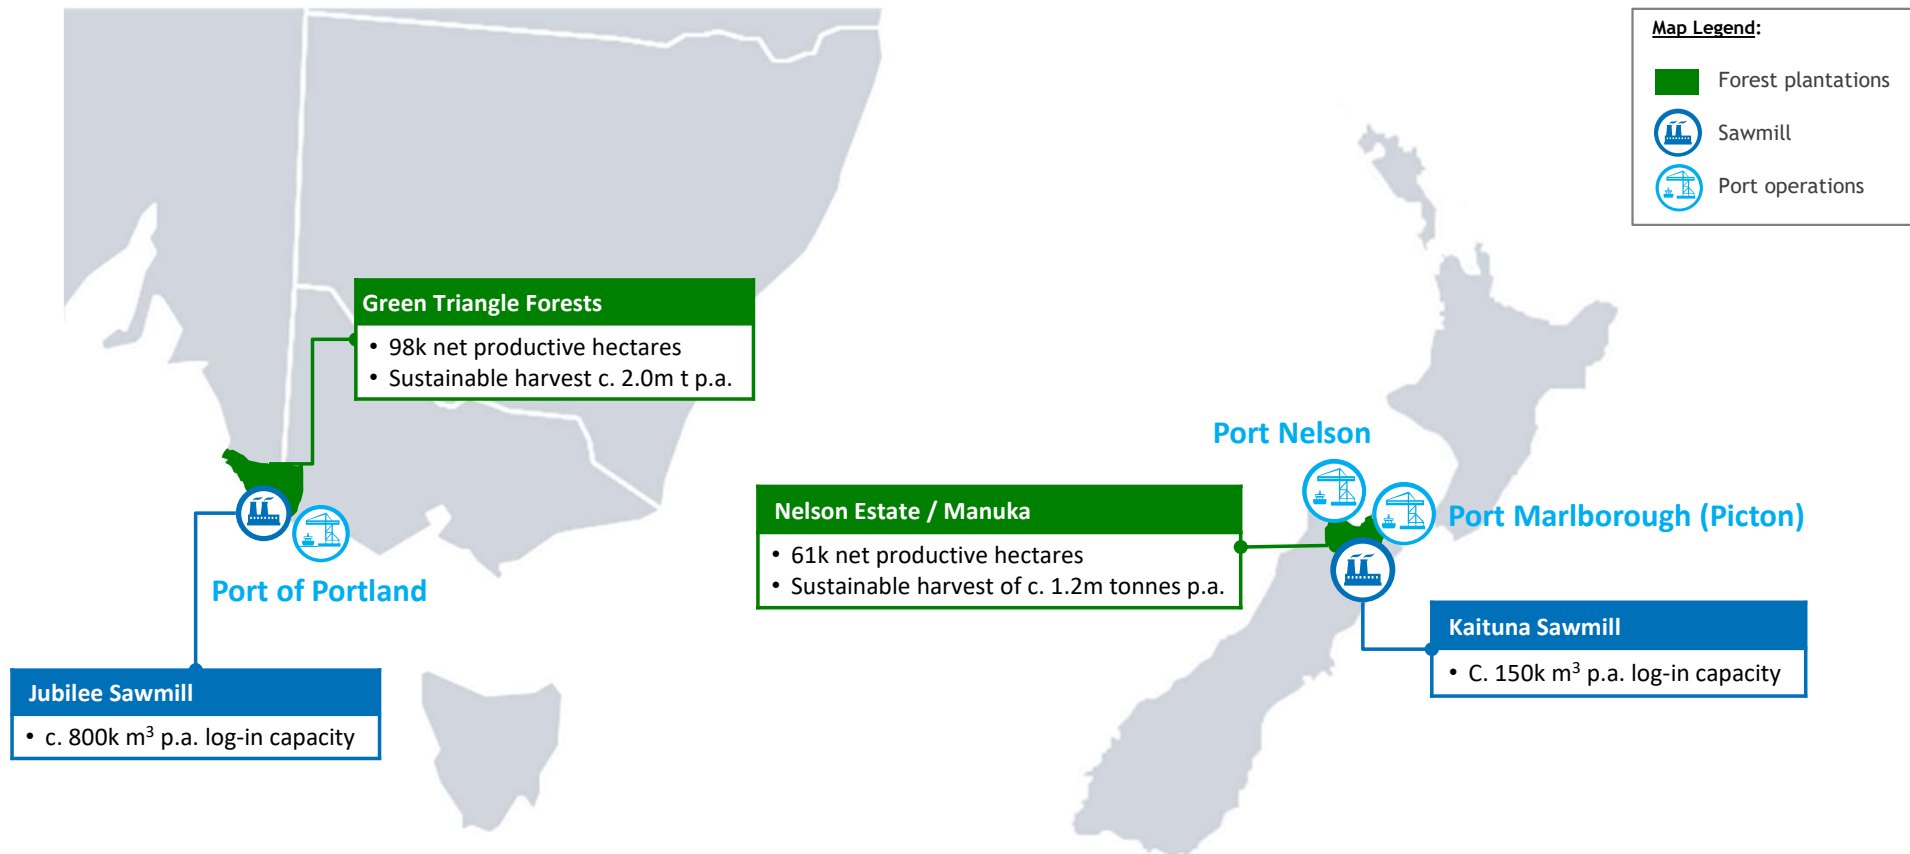

Coming the full circle

the creative fibre group

OneFortyOne Group — Australia & NZ Footprint

OFO is a significant trans-Tasman forestry and wood products business.

Jubilee powered Mt Gambier 1956 - 2007

BRG 347/6804

BRG 347/1541

Out with the old and in with the new

BRG 347/1542

But on a smaller footprint....

By the numbers

1. \$90m investment for a 45MW boiler and steam turbine
2. Primary purpose is steam for our kilns but can generate up to c.43,000MWh (of which c. 30,000MWh is utilised by Jubilee and remainder could be exported to grid).
3. Supports OFO's reduction of Scope 2 emissions
4. Optionality to electrify our mobile fleet in the future
