9 PRE-APPLICATION DISCUSSION AND SELF ASSESSMENT

When investigating new cultivation systems for farming oysters, it is the responsibility of the licence holder to ensure the proposed aquaculture activities do not adversely affect other lease and licence holders.

To assist in determining whether a proposal may have an adverse effect on other sites within an area, you are highly encouraged to discuss the proposal with other existing lease and licence holders within the same aquaculture zone.

The degree to which this is undertaken to support the proposal will be considered in the assessment of the application.

9.1 Please identify any existing leases and licences you think may be affected by the proposal:

.....

.....

.....

.....

9.2 Please state whether you have discussed the proposal with existing lease and licence holders:

- Yes (please attach evidence of communication with existing growers, such as letter/s of support, emails, meeting minutes, etc.)
- No (please detail below why you have not communicated the proposal with existing growers)

9.3.3 Could the proposal result in negative effects on phytoplankton availability to adjacent sites?

- No Yes, potential issues have been identified

*If yes, describe what the effect could be and how it will be avoided or how it has been mitigated.
If no, describe how this was determined.*

9.3.4 Could the proposal result in negative effects from biofouling deposited to adjacent sites?

- No Yes, potential issues have been identified

*If yes, describe what the effect could be and how it will be avoided or how it has been mitigated.
If no, describe how this was determined.*
