

NOTIFICATION OF POISON BAITING PROGRAM

Dear neighbour

This is to inform you that my poison baiting program for the control of pest animals is about to commence on my property.

Poisons pose an extreme risk to your livestock and domestic dogs. Please take steps (e.g. restraint or muzzling) to make sure your dogs does not have access to the baits or affected animals.

I will leave baits for feral cats in place until they are taken or decompose – I do not need to collect them.

All baits remain toxic for at least 12 months, even after rain. I will make every effort to remove all untaken baits, some may be moved by animals but not eaten, and these may remain on the ground.

I will not lay baits within 5 metres of my property boundary, nor within 1000 m of your dwelling.

I will erect signs warning of the poison baits at the property entrance to, and around my property boundary.

Property where baits will be:

Dates of poison baiting program: _____

Untaken baits will be collected by: _____

(circle applicable bait situation)

Toxin:	1080	PAPP	Strychnine	
Target Animal:	Fox	Wild Dog	Pig	Feral cats
Bait Type:	Fresh meat	Dried meat	Powder	Grains
Situation:	Property	Trap		

Please advise all other people on your property about this baiting program and the risk to dogs.
