The information removed from Documents 7b and 73a is outside of the scope of your request.

Determination 2

I have determined that access to the following documents is **granted in part**:

Doc No.	Description of document	No. of Pages
1	Emails between officers of Department for Environment and Water and PIRSA dated 25/6/2021 and 13/7/2021 re Wild Dog Control Notice	2

1a	Attachment to Document 1 – Email from Department for Environment and Water (DEW) officer to DEW and PIRSA officers dated 25/6/2021 re Wild Dog Control Notice	1
2	Email thread between officers of Department for Environment and Water and PIRSA dated 25/6/2021 to 6/8/2021 re Wild Dog Control Notice	6

The information removed from the above documents is pursuant to Clause 4(1)(a) and Clause 6(1) of Schedule 1 of the Freedom of Information Act.

Clause 4(1)(a) states:

> ***"4—Documents affecting law enforcement and public safety***
>
> *(1) A document is an exempt document if it contains matter the disclosure of which could reasonably be expected —*
> *(a) to endanger the life or physical safety of any person"*

The information removed pursuant to Clause 4(1)(a) consists of the floor level numbers of officers of the Department for Environment and Water (DEW).

DEW's responsibilities include many areas that are contentious, attract significant public interest and can be highly emotive. As such, disclosure of staff floor level locations may expose employees to harm from members of the public who hold opposing or strongly emotive views regarding the department's work.

The redaction of floor level locations does not prevent the broader information within the disclosed documents from being understood by the reader.

Clause 6(1) states:

> ***"6 - Documents affecting personal affairs***
> *(1) A document is an exempt document if it contains matter the disclosure of which would involve the unreasonable disclosure of information concerning the personal affairs of any person (living or dead)."*

The information removed pursuant to Clause 6(1) consists of the following:

- Mobile telephone numbers of Departmental officers
- Names of Departmental officers and other individuals

As a mobile telephone number allows a person, including an officer of an agency, to be contacted outside of business hours and is information that is not ordinarily available to the public, the information is taken to concern the personal affairs of an individual.

Consent has not been provided to disclose the names of the Departmental officers and other individuals and, accordingly, there would be an expectation that their personal information would not be released in this way.

Accordingly, it is considered that disclosure of this information would be an unreasonable intrusion into the privacy rights of the individuals concerned.

Determination 3

I have determined that access to the following document is **granted in part**:

Doc No.	Description of document	No. of Pages
38a	Attachment to Document 38 – Draft minute from Department for Environment and Water to Minister for Climate, Environment and Water dated 14/7/2023 re Dingo genetic research and dingo management in South Australia	6

The information removed from the above document is pursuant to Clause 5(1)(a)(i) and (b) of Schedule 1 of the Freedom of Information Act which states:

> ***"5—Documents affecting inter-governmental or local government relations***
>
> *(1) A document is an exempt document if it contains matter—*
>
> *(a) the disclosure of which -*
>
> *(i) could reasonably be expected to cause damage to intergovernmental relations; and*
>
> *(b) the disclosure of which would, on balance, be contrary to the public interest."*

The information removed consists of comments referring to a matter relating to another jurisdiction.

In favour of the public interest:

- Meeting the objects of the Freedom of Information Act favouring access to documents.
- Ensuring optimal use of public resources.
- High level of interest in the accountability of public office holders.
- The importance of transparency and openness and the interest that the public has in the decision-making processes of Government.
- Providing members of the public with access to information of special interest to them.

Contrary to the public interest:

- The continuing relevance of the matters was considered.
- Protecting the views of Departmental officers when considering matters relating to other jurisdictions.
- Internal and informal discussions that expose unverified interstate government agency positions need to be protected where the information shared may not yet be of public knowledge or substantiated as facts.

- The release of this information could cause damage to intergovernmental relations by way of reducing trust in collaboration and sharing of knowledge and information between the agencies.

Having considered the various factors weighing for and against disclosure, I have determined that disclosure of this information would, on balance, be contrary to the public interest.

- Ensuring optimal use of public resources.
- High level of interest in the accountability of public office holders.
- The importance of transparency and openness and the interest that the public has in the decision-making processes of Government.
- Providing members of the public with access to information of special interest to them.

Contrary to the public interest:
