

For extension to existing Type B or Type C permit to keep additional Class 2 species which are not currently held under a current permit

If there is not enough room supplied on the form please attach additional information.

Permit Holder: _____
Organisation: _____
Permit Number: _____

1. Provide a detailed plan on how this species will be managed and what benefits there will be to your facility and wider community e.g. public education, conservation, scientific research and development.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

2. From where will the animals be sourced?

3. What specific security and public safety risks are there in keeping this species?

This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue or grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings on the page.

- [illegible]

- This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

6. What expertise do you or your staff have to safely manage this species?

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

7. What Standards Operating Procedures, guidelines and/or policies will you put in place to ensure you, your staff and the public are not put at risk from this species?

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

8. For venomous reptiles please list the anti-venom that will be held and list recognised best practice for treating a person that is bitten by this species at your facility? Please list references.

9. List the numbers of animals you intend to obtain from your nominated source?

Male: _____
Female: _____

Are you prepared to maintain a single sex collection? Yes/No

Only answer the following if both sexes are being held.

10. Are you intending to breed this species now or in the future? Yes/ No

If No, how will you control breeding?

If Yes, what maximum numbers are you planning to hold?

Male: _____
Female: _____

11. What will you do with excess animals of this species, above the maximum number of animals you have listed, and what arrangements or agreements are in place for disposal of the species should the animals not be required?

12. Will the breeding of this species be in accordance with an ASMP plan?

Yes/No

If Yes, name the ZAA ASMP contact: _____

13. If the breeding is not part of an ASMP plan please list reasons why you need to maintain a breeding population?

14. Please attach a detailed plan of the enclosure (including construction materials and security) and a site map of the facility showing the location of enclosure in relation to other enclosures and the boundary.
